

Eurovision Children's DOCUMENTARY Series

The latest Children's Documentary Series "Challenges" documents the lives of 15 children who show us how to face life's challenges with courage and optimism. Boys and girls aged 10-12 from Europe, Africa and Japan bring us fascinating and uplifting stories which will inspire, engage and amuse our audiences.

Participation in this co-production means a co producer makes a single 15 minute film, then in exchange they can take the whole series from all other participating countries. Our films are made to high professional standards and have won many international film awards. Come and join us!

20 April 2010
