

## Eurovision Children's DRAMA Series

The Children's Drama Series "Temptations" is a unique opportunity to reach millions of children all over the world. Our stories feature kids actively conquering many challenges and are made in a variety of genres - from action adventure to comedy to fantasy. Participation in this co-production means a broadcaster produces a single 15 minute film, then in exchange he can take up to 13 films from countries as diverse as Holland, Japan and Egypt. Our films are made to high professional standards and have won many international film awards. Come and join us!
